

Beginning Paper Making for Children

Darrell S. Ross

Please print clearly, type, or computer generate these forms.
Complete each question *thoroughly*.

Course Title: Beginning Paper Making for Children

Course Instructor: Darrell S. Ross

Of Sessions: One Class and a Tour

Preferred Class Time: Saturdays

I. Course Description

(The description is your *only* tool to encourage and invite students to register for your class. Without a thorough and complete description, your class *may not* be selected.)

Children will learn how to make paper from recycled envelopes and color paper using a kitchen blender, coffee cans, cookie cutters and candy molds. The project will be “seed paper” and coloring a flowerpot for a gift or fundraiser for the “Rose Garden”.

II. Course Objective

(What is the main learning point of this course from the student perspective?)

Learn about paper making thru the use of household kitchen items and how recycling used paper into decorative art projects.

III. Methods of Presentation

(Lecture, demonstration, participative, etc.)

Tour of “Rose Garden” and Participation in making their own paper and decorating.

IV. Recommended Texts or Supplemental Material

(Copy work is provided by Community Education, 10-day advance notice.)

Will be provided, pulp, screens, coffee cans and blenders.

Beginning Paper Making for Children – Darrell S. Ross

Please limit to the fewest meetings possible to meet the learning objectives.

V. Calendar of Topics

Session I

1. Start with Tour of Rose Garden and learn about the different flowers.
2. Explain the process of recycling paper.
3. Have them take paper pulp and start their project.
4. Decorate the paper and then color their flower pots.
5. Explain other projects they can make with their parents.
6. Donate to the Rose Garden or keep as a gift for someone.

Refer to Rose Wall Project: www.darrellross.jigsy.com

Five things attendees will learn from this session:

(Tip: Try to use specifics, such as “how to...” or “6 successful ways to ...”)

1. How to recycle paper into artwork.
2. Methods of papermaking made easily.
3. Creating unique items from recycled paper.
4. Learn about the Rose Garden and the flowers.
5. Hopefully spark interests in learning more about paper making.
